Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

1,067,500

SPRINGFIELD NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, store or office at that number was vacant when canvass was made.

*Denotes householders and places of business having telephones.

"(1-A)" indicates marginal index for locating street on the map.

"(Right odd)" after street description indicates odd numbers cn right side of street.

DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE MEDIA DEPARTMENTAL OF THE ADVERTISING FEDERATION OF AMERICA

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all Departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publication.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*

CLASSIFIED DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to any firm or individual in business, classified according to their business or profession.

Information—as to Associations, Clubs and Societies, when and where they meet and the name and address of their secretary.

Information—as to Corporations and Chartered Companies, dates of their incorporation, their authorized capitalization and their officers.

Information—as to Churches, their location and pastor together with the pastor's address.

Information—as to where to obtain a list of prospects for your products or service.

Information—as to where to obtain any service that your community has to give.

Information—as to where to buy advantageously when competitive bids are required for any given service or product.

—Finally—

If your neighbor has it to sell, give him your business.

Like consideration from your neighbor adds prosperity to both.

Form habits of Fire Prevention Now!

It's just as easy to be careful of fire as to be careless—yet fully 75 per cent of our annual fire loss of more than half a billion dollars is due to carelessness.

Matches and smoking, rubbish and litter, defective chimneys and flues, sparks on roofs, faulty electric wiring, stoves, furnaces and hot pipes—all are responsible for huge losses every year, many of which are easily preventable.

Do your part to help cut down this national loss. Rules for fire prevention will be sent upon request.

BUYERS' DIRECTORY

It's Practical Uses

To give permanence to paid-for publicity.

✦✦✦

To detail more fully the products and service of industrial, commercial, financial and professional activities.

✦✦✦

To form a quality background by the better use of type and paper.

✦✦✦

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

✦✦✦

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.
